

## MISSION BAY AFFORDABLE HOUSING

San Francisco's new Mission Bay development covers 303 acres between San Francisco Bay and Interstate 280. The Board of Supervisors established the Mission Bay North and Mission Bay South Redevelopment Project Areas in November 1998. Up to 6,000 housing units will be built in Mission Bay, 1,700 of which will be affordable to moderate, low, and very low income households. Units are expected to be developed over the next fifteen to twenty years, and affordable units will be created in both private mixed-income projects and Redevelopment Agency-sponsored stand-alone affordable housing projects.

The following current developments include below market rate ("BMR") housing opportunities in Mission Bay. Information on current rent levels, maximum incomes and unit availability may be obtained from the resident manager at the telephone number listed. Each development maintains its own waiting list and application procedure. Interested persons should call or visit the manager for more information.
