

Mayor's Office of Housing and Community Development
City and County of San Francisco

London N. Breed
Mayor

Kate Hartley
Director

On May 6, 2014, the OCII Commission considered and approved the Memorandum of Understanding (MOU) between OCII and the Mayor's Office of Housing and Community Development ("MOHCD"). The MOU requires a Marketing Outcomes Project Report subsequent to the initial lease-up for each OCII affordable housing development. The report for 2500 Arelious Walker Drive – Alice Griffith Phase 3 follows.

Marketing Outcomes Project Report
October 19, 2018

Total Number of People Housed in the 28 lottery units at Alice Griffith Phase 3	83 30-Children 0-Seniors 55+

Background

Alice Griffith Phase 3 includes 28 affordable tax credit units (plus one manager's unit) and 93 public housing replacement units, for a total of 122 affordable housing units ranging from one-bedroom to four-bedrooms. The design of Phase 3 has many of the same stylistic details as the design of Phases 1 and 2. Additionally, Phase 3 was intentionally designed to meet the diverse needs of families with 122 units, ranging from two-bedroom to four-bedroom flats to three-bedroom townhomes. There is a podium structure with a landscaped courtyard which provides direct access to many of the units. Vegetation and age appropriate structures define multi-generational gathering spaces. Parking is provided in the podium structure, for vehicles and bicycles. Keeping with the design of the pedestrian oriented residential neighborhood, two and four bedroom units wrap the podium, creating porches and stoops. Construction began in February 2016, and construction completion was on November 20, 2017

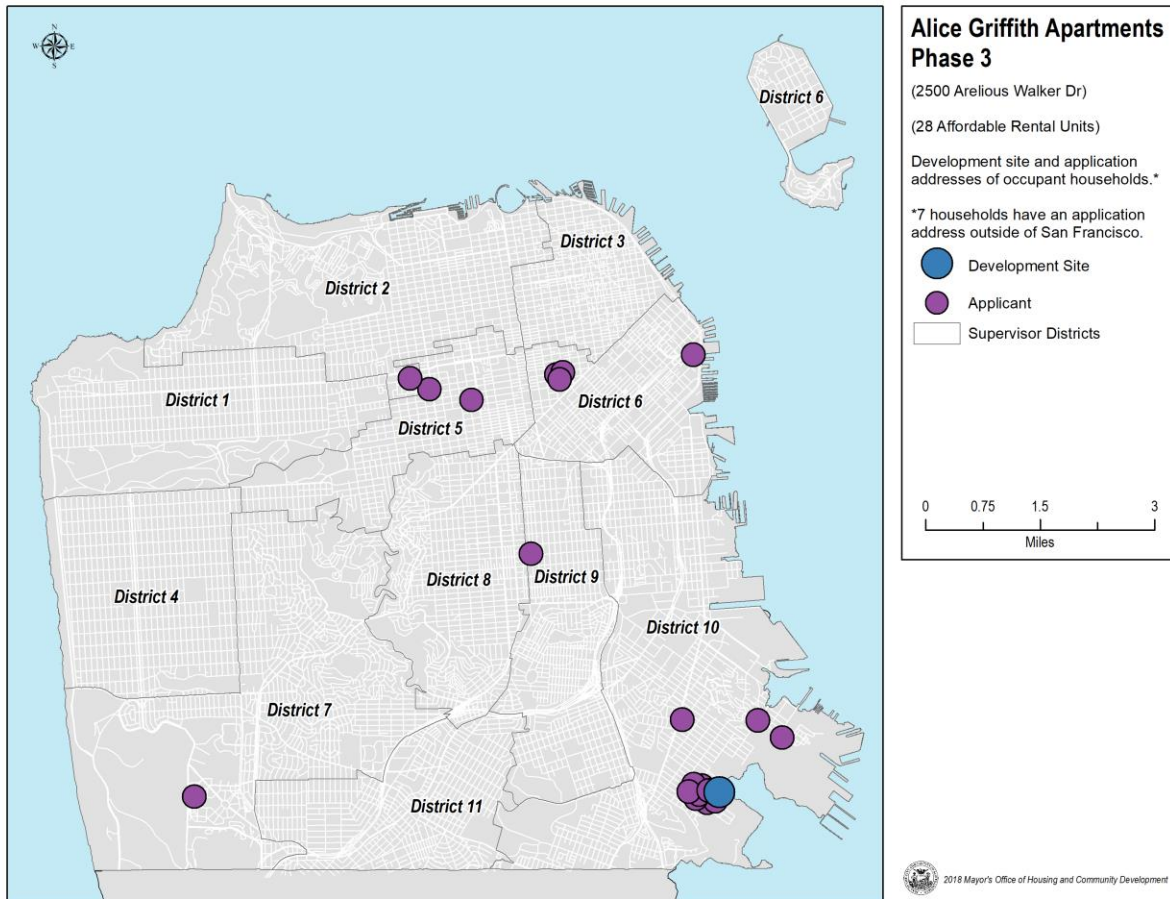

Alice Griffith Phase 3 Lease-up Demographics

MOHCD uses the same categories as HUD to identify race and ethnicity demographics among applicant head of households. Each head of household is asked to identify a race and they are also asked if they are of Latino ethnicity. 43% of the 28 successful applicant households at Alice Griffith PH3 identify their race as African American, while 14% identify as Other/ Multiracial, 11% as White, 7% as Black/African American and White, 7% as Asian, 7% as Native Hawaiian/Other Pacific Islander, 4% as American Indian/Alaskan Native and Black/African American, and 4% identified their race as American Indian/Alaskan Native. 4% declined to state their race. With regard to ethnicity, 25% of the head of household's were of Latino ethnicity. It is also interesting that there were no households that contained a person over the age of 55 years.

Location of Origin of Successful Applicants

Below is a district map of where the 28 successful applicants originated. Because of the Alice Griffith returnee preference, not surprisingly 12 of the successful applicants were from District 10 but 21 lived in San Francisco. Because of the Rent Burdened and Alice Returnee lottery preferences, 25% of successful applicants came from communities outside of San Francisco. Seven households previously resided in Antioch, Daly City, Hayward, Oakland, Vallejo, and Walnut Creek. Three of the out of City households were Alice Griffith returnees' and four were rent burdened applicants.

Income Levels Served

Rents at Alice Griffith Phase 3 are set at 50% AMI. At lease up, rents ranged between \$1,085 and \$1,311 per month, depending on unit size. A single person household would have to earn between \$1,085 and \$2,170 per month to qualify. To qualify for a 3 bedroom unit, a household would have to earn at least \$2,622 per month. The households at Alice Griffith Phase 3 earned between \$10,929 and \$55,483 per year. The household's earning less than \$26,040 or 50% AMI, needed a rental subsidy and deposit assistance to qualify. Two households used a Section 8 Housing Choice voucher, five households used other City sponsored rental subsidies from the non-profit agencies, Hamilton Families and the Q Foundation.

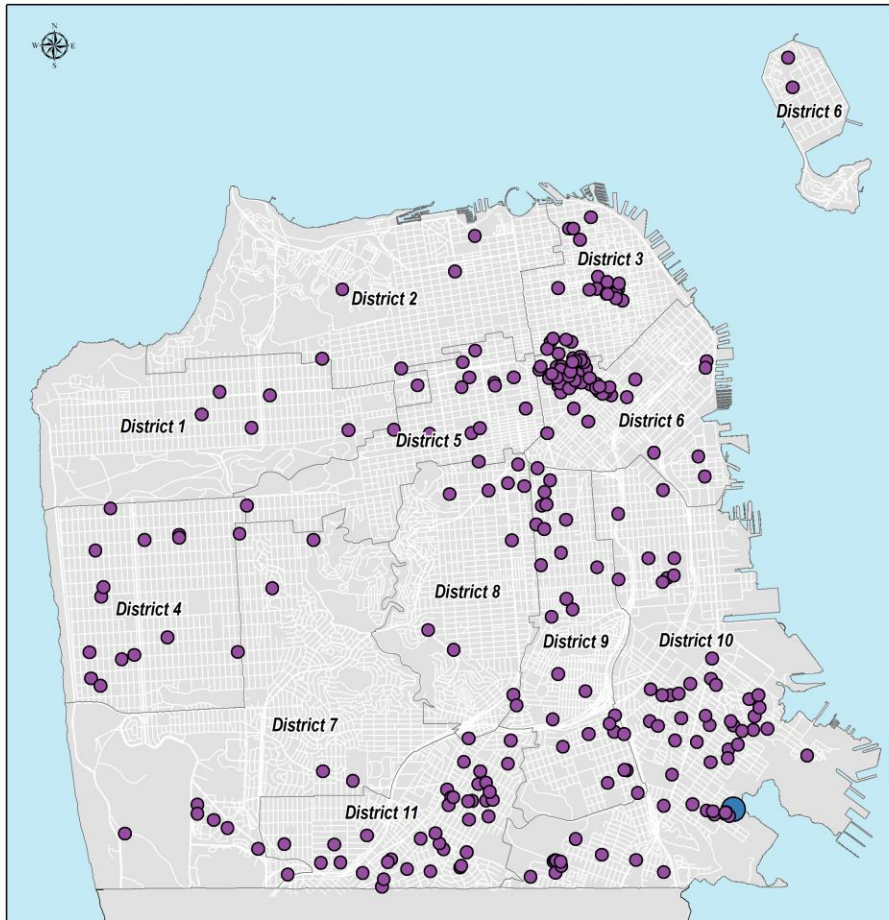

Affordable Housing Lottery Preferences and Lease Up

4,445 households applied to Alice Griffith Phase 3 for 28 tax credit funded units. Below are the housing lottery preferences for all applicants as well as those applicants who secured housing. We are pleased that most residents selected were Alice Griffith returnees.

The Rent Burdened or Assisted Housing preference served households who were paying more than 50% of their household income in housing costs or living in San Francisco project based, HUD subsidized housing. Applicants had to submit a copy of their current lease showing the address where they lived as well as some indication of the amount of their last month's rent with documentation of rent payments. This preference accounted for 393 applicants. 103 households from this preference lived outside of San Francisco. The top three cities include Daly City, Oakland and Richmond.

Lottery Preferences of Occupants

AG 3 offered 7 mobility and communication units for those households that indicated on their application that they required such a unit. Documentation from a health care provider indicating a household member's need for these units is required to ensure that this valuable resource is being used as they were intended. During the course of the lease up at AG 3, MOHCD and OCII staff discovered that the leasing agent (MBM) was not following the lease up protocols established by MOHCD to offer mobility and communication accessible units to qualified households. Corrective action was taken and McCormack Baron Salazar now has a plan in place to transfer households who do not have a mobility or communication impairment into other units so that they can offer those units to people who do need them.

COP Success Stories

COP holder Mr. Red had never before applied for affordable housing until he applied at Alice Griffith.

“I received help from the Q foundation, and the Mayor’s Office of Housing and Community Development when applying. I was even blessed to get a parking stall in the facility. Prior to moving here, I was renting a room that had become uncomfortable, considering I was there with a lady friend and her daughter. I go visit her now. It’s been ok for me here. I keep to myself but I do attend the committee meetings and focus groups they have in the community room. The way things are set up here is good, beautiful even. I would encourage COP holders to participate in the program and keep applying for housing. There are a lot of housing developments currently being built.”

COP holder Mr. Blue applied to 3 housing opportunities before settling into Alice Griffith.

“Before living here, I was living in my car. It was pretty bad, but I was so happy that I got help from the Q Foundation. My significant other and I were coming out of relationship and we needed help. I had to get her off the street as well. She is the one who kept encouraging me to apply. I love it here. Every day I love it more and more. Everyone keeps asking me when the housewarming is, but I do like my peace my and quiet. I am enjoying the view here, my unit is right by the bay. I am learning the transportation around here too. I walk two blocks to a bus that takes me to BART. The process of moving here was beautiful. You guys really came through when I really needed it and management is cool too, and courteous and smart. What I would say to other COP holders, is that the COP program works.”
