

Mayor's Office of Housing and Community Development
City and County of San Francisco

London N. Breed
Mayor

Eric D. Shaw
Director

On May 6, 2014, the OCII Commission considered and approved the Memorandum of Understanding (MOU) between OCII and the Mayor's Office of Housing and Community Development ("MOHCD"). The MOU requires a Marketing Outcomes Project Report after the initial sale of each OCII affordable housing development. The report for Hunters Point Shipyard, Blocks 55 and 57B BMR Project follows.

How many DTHP holders applied	1
Total Number of People Housed in 11 affordable units	34 Landing - 20 Palisades - 14

Hunters Point Shipyard Sales Demographics of Occupants

MOHCD uses the same categories as HUD to identify race and ethnicity demographics among 11 head of households. Each applicant is asked to identify a race and they are also asked if they are of Latino ethnicity. Eight (73%) of successful households identified their race as Asian, and three (27%) as White. With regard to ethnicity, no household self-identified as being Latino.

The average household income of the homebuyers purchasing at the Shipyard is 75% AMI or \$78,670. The average household size of the 11 households is 3.1. Five of the 11 households have children and one of the 11 households includes a senior.

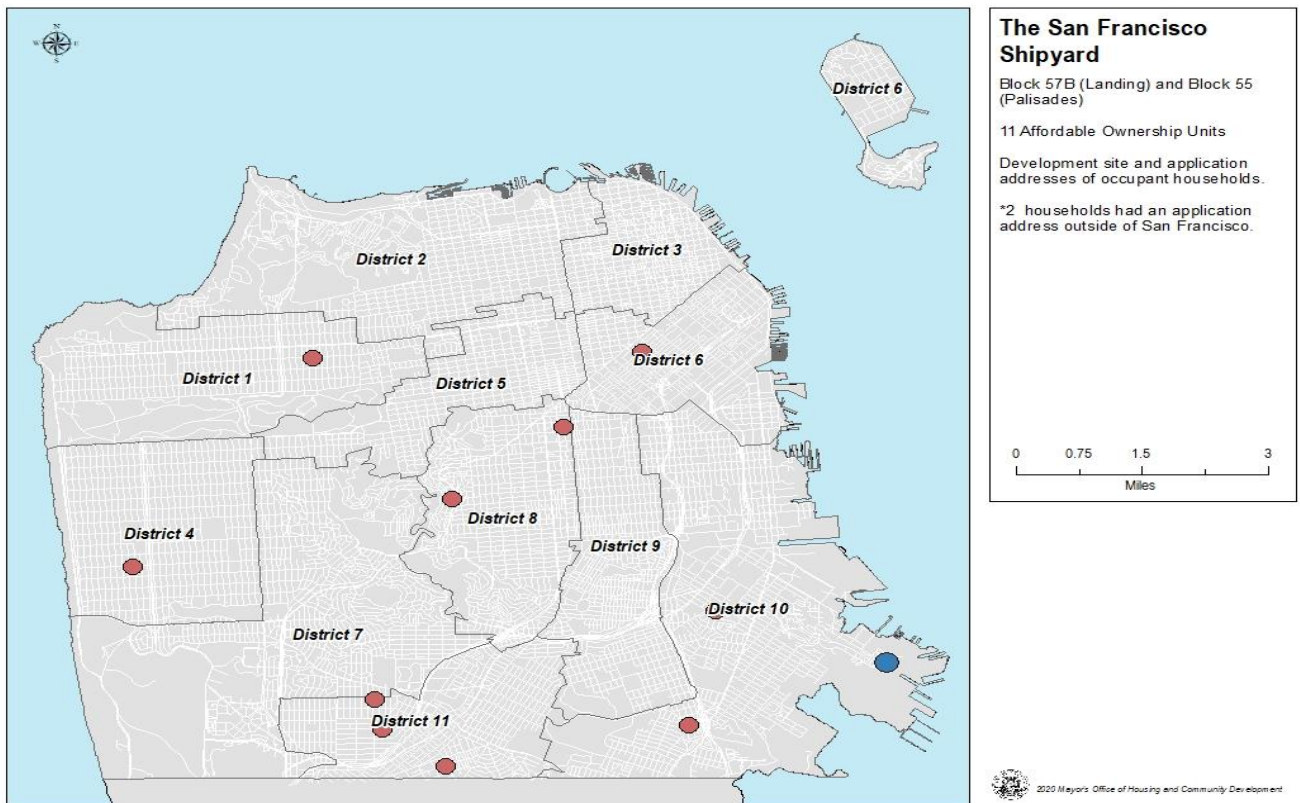

Hunters Point Shipyard Sales Demographics of Applicants

Forty-four of the 84 applicants included their race and ethnicity when applying for the Palisades and Landing units. Each applicant was asked to identify a race and if they are of Latino ethnicity. 37 (84%) households identified their race as Asian, 2 (5%) as African American, 2 (5%) as White, 2 (5%) as Other Multiracial, and 1 (1%) as American Indian/Alaskan Native/White. With regard to ethnicity, no household self-identified as being Latino. The remaining 40 applicants did not respond to the race and ethnicity questions.

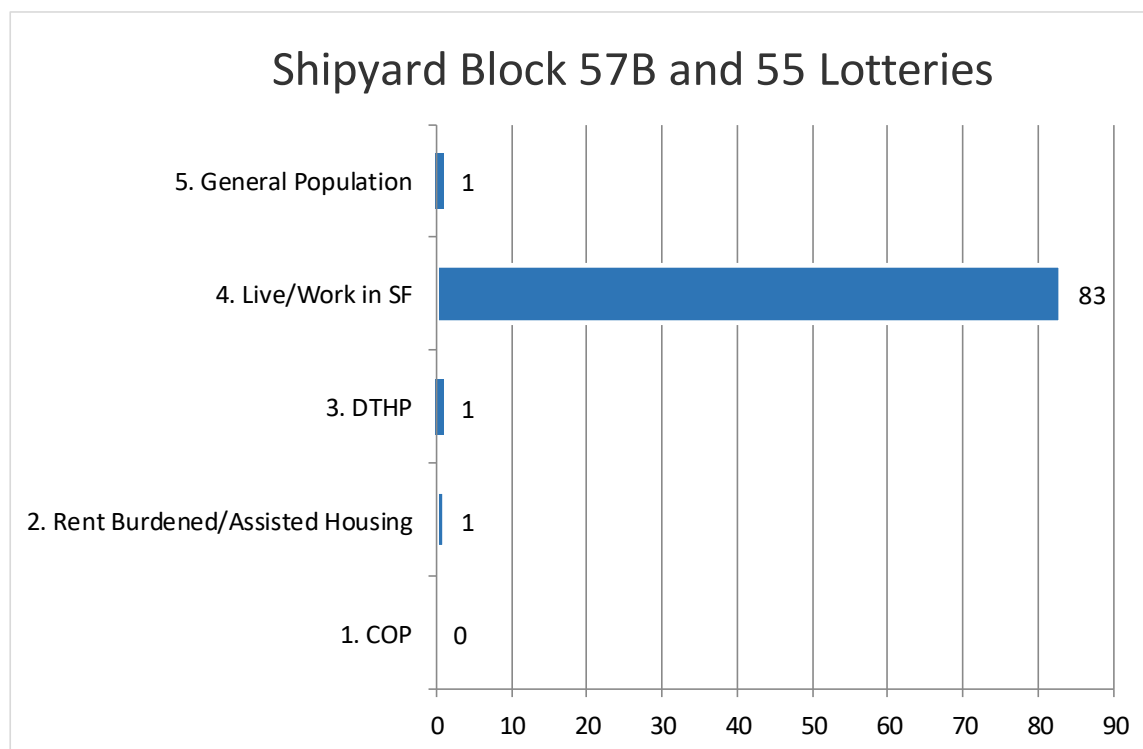

Location of Origin of Applicants that Purchased

The 11 homeowners came from several locations throughout the City however two households lived outside of San Francisco.

Affordable Housing Lottery Preferences and Sales

84 households applied for 11 BMR units at the Landing and Palisades. Of the 84 applicant households, 14 applications were reviewed, 11 applications approved, and 3 disqualified. The disqualified applicants were Live/Work households: 2 disqualified due to being over income, and 1 for insufficient documentation of the lottery preference they claimed on their application (Rent Burdened or Assisted Housing Resident). The DTHP household and the one qualified applicant using the Assisted Housing Resident preference successfully purchased their first home. The remaining 9 households were selected from the Live/Work in San Francisco preference pool.

Construction Delays

The 11 units, located in two separate buildings, were originally submitted for marketing as one project because, according to the developer, they were expected to be ready for occupancy at the same time. However, due to construction delays on the two townhomes at Palisades during the marketing plan review, they were removed from the original marketing plan and marketed and sold separately. Therefore, two lotteries occurred: one held on 3/6/2019 for 9 units (8 units at Landing and 1 unit at Palisades) and the other on 8/9/2019 for the remaining 2 units at Palisades.

Success Stories

The Green family was displaced in 2016 from their long-time rent-controlled home because of a three-alarm fire. The family used their DTHP certificate and purchased a 3-bedroom townhome unit at the Palisades. Mr. Green is an Art Preparator for the Fine Arts Museum and his spouse is self-employed as a Transcriptionist and works from home to care for their teenage children. For many years, they worked hard to save money to purchase a home. With the help of their housing counseling agency, San Francisco Housing Development Corporation, they were able to secure financing to purchase an affordable dream home in the Shipyard.

The Brown family used the Assisted Housing resident lottery preference to purchase a 3-bedroom townhome unit at the Palisades. The family of 5 moved to their new home from Valencia Gardens, public housing owned by Mission Housing Development Corporation. The family has 3 children aged 14, 16 and 18 who were eager to move from their apartment to their new home. Mr. Brown is a custodian for SFO and his spouse is a waitress at a local restaurant. The housing opportunity at Valencia Gardens helped the family reach their financial goals to pursue affordable homeownership and the Assisted Housing Resident lottery preference allowed them to realize their homeownership dream in San Francisco where they live, work, and go to school. They were extremely excited for the opportunity.
