

Mission Bay Mariposa Park

Mariposa Park opened August 2016 and is located at the corner of Maiposa and Owens Street. Mariposa Park (Mission Bay Parcels P26/P27) is designed to provide a green, flexible-use park envisioned in Mission Bay Design Guidelines. Open lawns, seating terraces, plazas, and paths promote a balance of active and passive uses. An overhead trellis structure assembled from locally salvaged building materials traces the radial track pattern extending from the old turn-table and provides an industrial design aesthetic. A designated play zone encourages active use by children of all ages.

Design Architect: Wallace Roberts & Todd
 Developer: FOCIL MB / LLC and Mission Bay Development Group
 Contractor: Anvil Builders
 Lot Size: 2.38 acres
 Land Use Designation: Open Space
 Key Amenities/Features: Play area for children, multi-use lawn, picnicking facilities
 Project Cost: \$2,723,503
 Project Status: Opened August 2016

August 2016
