RESOLUTION NO. 225-2000
Adopted November 14, 2000

AUTHORIZING AN EXPENDITURE NOT TO EXCEED $97,890 FOR THE
DESIGN, FABRICATION, DELIVERY AND INSTALLATION OF
CUSTOM BUILT PLAY EQUIPMENT FOR THE CHILDREN’S CENTER,
LOCATED ON CENTRAL BLOCK THREE;
YERBA BUENA CENTER

BASIS FOR RESOLUTION

1) The Redevelopment Agency of the City and County of San Francisco
(“Agency”), requires an additional piece of play equipment (“Climbing
Structure”) to complete the play facilities of the Children’s Center Play Circle
in Yerba Buena Center.

2) The play equipment to be purchased was initially designed by Playground
Environments International, a for profit New York Corporation in
collaboration with M. Paul Friedberg and Partners, Landscape Architect for
the Children’s Center Gardens to be installed under the General Construction
Contract with Dennis J. Amoroso. Purchase and installation of this
equipment was deferred for budgetary reasons.

3) The Agency still requires the services of a qualified design/build manufacturer
of play equipment to produce the required facility and Agency staff has
determined that Playground Environments International is the sole source to
provide this service.

4) The Agency also requires the services of a qualified metalwork contractor to
install the special made equipment under the supervision of the manufacturer.

RESOLUTION

ACCORDINGLY, IT IS RESOLVED THAT the Executive Director or his designee is
authorized to execute a purchase agreement with Playground Environments International
to design, fabricate, deliver to the project site and supervise installation of a Climbing
Structure for the Play Circle at Yerba Buena Gardens for a cost not to exceed $77,890. In
addition, the Executive Director or his designee shall contract for the services of a
metalwork contractor for the installation of the climbing structure at a cost not to exceed
$20,000 in compliance with the Agency’s Purchasing Policy and Procedures.
