RESOLUTION NO. 78-2007

Adopted July 17, 2007

CONDITIONALLY APPROVING THE COMBINED BASIC CONCEPT AND SCHEMATIC DESIGN FOR A 259-UNIT RESIDENTIAL PROJECT ON BLOCK 13 WEST IN THE MISSION BAY SOUTH REDEVELOPMENT PROJECT AREA, PURSUANT TO THE OWNER PARTICIPATION AGREEMENT WITH FOCIL-MB, LLC AND ADOPTING ENVIRONMENTAL FINDINGS PURSUANT TO THE CALIFORNIA ENVIRONMENTAL QUALITY ACT; MISSION BAY SOUTH REDEVELOPMENT PROJECT AREA

BASIS FOR RESOLUTION

1. On September 17, 1998, by Resolution No. 190-98, the Commission of the Redevelopment Agency of the City and County of San Francisco ("Agency Commission") approved the Redevelopment Plan for the Mission Bay South Redevelopment Project Area ("Plan"). On the same date, the Agency Commission adopted related documents, including Resolution No. 193-98 authorizing execution of an Owner Participation Agreement ("South OPA") and related documents between Catellus Development Corporation, a Delaware corporation ("Catellus"), and the Agency. On November 2, 1998, the San Francisco Board of Supervisors ("Board of Supervisors"), by Ordinance 335-98, adopted the Plan. The Plan and its implementing documents, as defined in the Plan, constitute the "Plan Documents."

2. The Plan Documents, particularly the Design Review and Document Approval Procedure designated as Attachment G to the South OPA ("DRDAP"), provide that the Agency will review and process development proposals in Mission Bay South in "Major Phases." Submission of design plans and documents for any specific building ("Project") must be consistent with the requirements established for each Major Phase.

3. On September 17, 1998, the Agency Commission adopted Resolution No. 182-98 which certified the Final Subsequent Environmental Impact Report as a program EIR for Mission Bay North and South pursuant to the California Environmental Quality Act ("CEQA") and State CEQA Guidelines Section 15180. On the same date, the Agency Commission also adopted Resolution No. 183-98, which adopted environmental findings (and a statement of overriding considerations), in connection with the approval of the Plan and other Mission Bay project approvals. The San Francisco Planning Commission ("Planning Commission") certified the FSEIR by Resolution No. 14696 on the same date. On October 19, 1998, the Board of Supervisors adopted Motion No. 98-132 affirming certification of the FSEIR by the Planning Commission and the Agency, and Resolution No. 854-98 adopting environmental findings and a statement of overriding considerations. Hereinafter, the Final Subsequent Environmental Impact Report, including any addenda thereto, shall be collectively referred to as the "FSEIR."
4. On November 1, 2005, the Agency Commission adopted Resolution No. 178-2005, which found that the potential environmental impacts of the Blocks 2-7 and 13 Major Phase were within the scope of impacts discussed in the FSEIR and approved the Blocks 2-7 and 13 Major Phase submission.

5. Catellus, the original master developer of the Mission Bay North and South Redevelopment Project Areas, has sold most of its remaining undeveloped land in Mission Bay to FOCIL-MB, LLC (“FOCIL-MB”), a subsidiary of Farallon Capital Management, LLC, a large investment management firm. The sale encompasses approximately 71 acres of land in Mission Bay, and the remaining undeveloped residential parcels in Mission Bay South. FOCIL-MB has assumed all of Catellus’s obligations under the South OPA and the Agency’s Owner Participation Agreement for Mission Bay North (collectively, the “OPAs”), as well as all responsibilities under the related public improvement agreements and land transfer agreements with the City and County of San Francisco. FOCIL-MB will be bound by all terms of the OPAs and related agreements, including the requirements of the affordable housing program, equal opportunity program, and design review process.

6. As permitted under the South OPA, Bosa Development California, Inc., (“Developer”), purchased the Block 13 West parcel and in developing it will be bound by all relevant terms of the South OPA and related agreements, including the requirements of the equal opportunity program and design review process.

7. Pursuant to the Plan Documents, including the DRDAP, the Developer has submitted a Combined Basic Concept and Schematic Design for a 259-unit residential project on Block 13 West dated July 11, 2007 (“Schematic Design”).

8. Agency staff has reviewed the Schematic Design submitted by the Developer, finds it acceptable and recommends approval thereof, subject to the resolution of certain conditions.

9. The FSEIR is a program EIR under CEQA Guidelines Section 15168 and a redevelopment plan EIR under CEQA Guidelines Section 15180. Approval of the Schematic Design is an undertaking pursuant to and in furtherance of the Plan in conformance with CEQA Section 15180 (“Implementing Action”).

10. Agency staff, in making the necessary findings for the Implementing Action contemplated herein, considered and reviewed the FSEIR. Documents related to the Implementing Action and the FSEIR have been and continue to be available for review by the Agency Commission and the public and are part of the record before the Agency Commission.

11. The FSEIR findings and statement of overriding considerations adopted in accordance with CEQA by the Agency Commission by Resolution Nos. 183-98 dated September 17, 1998 and 178-2005 dated November 1, 2005, were and remain adequate, accurate and objective and are incorporated herein by reference as applicable to the Implementing Action.
FINDINGS

The Agency finds and determines that the Schematic Design submission is an Implementing Action within the scope of the Project analyzed in the FSEIR and requires no additional environmental review pursuant to State CEQA Guidelines Sections 15180, 15162 and 15163 for the following reasons:

1. The Implementing Action is within the scope of the Project analyzed in the FSEIR and no major revisions are required due to the involvement of new significant environmental effects or a substantial increase in the severity of significant effects previously identified in the FSEIR.

2. No substantial changes have occurred with respect to the circumstances under which the Project analyzed in the FSEIR was undertaken that would require major revisions to the FSEIR due to the involvement of new significant environmental effects, or a substantial increase in the severity of effects identified in the FSEIR.

3. No new information of substantial importance to the Project analyzed in the FSEIR has become available which would indicate that (a) the Implementing Action will have significant effects not discussed in the FSEIR; (b) significant environmental effects will be substantially more severe; (c) mitigation measures or alternatives found not feasible which would reduce one or more significant effects have become feasible; or (d) mitigation measures or alternatives which are considerably different from those in the FSEIR will substantially reduce one or more significant effects on the environment.

RESOLUTION

ACCORDINGLY, IT IS RESOLVED by the Redevelopment Agency of the City and County of San Francisco that (1) it has reviewed and considered the FSEIR findings and statement of overriding considerations and hereby adopts the CEQA findings set forth in Resolution Nos. 183-98 and 178-2005 incorporated herein and those set forth above; and (2) that the Combined Basic Concept and Schematic Design for Block 13 West is hereby approved pursuant to the Mission Bay South Owner Participation Agreement with FOCIL-MB, subject to the following conditions:

1. All of the project's colors, materials, and finishes are subject to further review and approval by Agency staff during the Design Development phase. A field mock-up of all materials for staff review shall be done prior to construction.

2. The facades shall suggest a clear separation between the two towers and mid-rise element. The relationship of these two building elements is subject to further review and approval during the Design Development phase.

3. Details of the garage entry, including the proposed gate element is subject to further review and approval during the Design Development phase.
4. Consistency between the Block 13 West design and the Mission Bay South Streetscape Master Plan shall be maintained, particularly related to the location of street trees. The tree species on El Dorado Street may be modified to mitigate potential wind impacts.

APPROVED AS TO FORM:
