RESOLUTION NO. 79-2007

Adopted July 17, 2007

CONDITIONALLY APPROVING THE COMBINED BASIC CONCEPT AND SCHEMATIC DESIGN FOR A PARKING GARAGE ON PARCEL 3 OF BLOCKS 41-43 IN THE MISSION BAY SOUTH REDEVELOPMENT PROJECT AREA, PURSUANT TO THE OWNER PARTICIPATION AGREEMENT WITH FOCIL-MB, LLC AND ADOPTING ENVIRONMENTAL FINDINGS PURSUANT TO THE CALIFORNIA ENVIRONMENTAL QUALITY ACT;
MISSION BAY SOUTH REDEVELOPMENT PROJECT AREA

BASIS FOR RESOLUTION

1. On September 17, 1998, by Resolution No. 190-98, the Commission of the Redevelopment Agency of the City and County of San Francisco ("Agency Commission") approved the Redevelopment Plan for the Mission Bay South Redevelopment Project Area ("Plan"). On the same date, the Agency Commission adopted related documents, including Resolution No. 193-98 authorizing execution of an Owner Participation Agreement ("South OPA") and related documents between Catellus Development Corporation, a Delaware corporation ("Catellus"), and the Agency. On November 2, 1998, the San Francisco Board of Supervisors ("Board of Supervisors"), by Ordinance 335-98, adopted the Plan. The Plan and its implementing documents, as defined in the Plan, constitute the "Plan Documents."

2. The Plan and the Plan Documents, including the Design Review and Document Approval Procedure, designated as Attachment G to the South OPA ("DRDAP"), provide that development proposals in Mission Bay South will be reviewed and processed in "Major Phases," as defined in and consistent with the Plan and the Plan Documents. Submission of design plans and documents for any specific building ("Project") must be consistent with the requirements established for each Major Phase. The DRDAP sets forth the review and approval process for Major Phases and Projects.

3. On September 17, 1998, the Agency Commission adopted Resolution No. 182-98 which certified the Final Subsequent Environmental Impact Report as a program EIR for Mission Bay North and South pursuant to the California Environmental Quality Act ("CEQA") and State CEQA Guidelines Section 15180. On the same date, the Agency Commission also adopted Resolution No. 183-98, which adopted environmental findings (and a statement of overriding considerations), in connection with the approval of the Plan and other Mission Bay project approvals. The San Francisco Planning Commission ("Planning Commission") certified the FSEIR by Resolution No. 14696 on the same date. On October 19, 1998, the Board of Supervisors adopted Motion No. 98-132 affirming certification of the FSEIR by the Planning Commission and the Agency, and Resolution No. 854-98 adopting
environmental findings and a statement of overriding considerations. Hereinafter, the Final Subsequent Environmental Impact Report, including any addenda thereto, shall be collectively referred to as the “FSEIR.”

4. On October 10, 2000, the Agency Commission adopted Resolution No. 199-2000, which found that the potential environmental impacts of the Blocks 41-43 and 45 Major Phase were within the scope of impacts discussed in the FSEIR and approved the Blocks 41-43 and 45 Major Phase submission. On October 18, 2005, by Resolution No. 163-2005, the Agency Commission approved a revised Major Phase submission for Blocks 41-43 which did not include Block 45, and reconfirmed the previously made environmental findings.

5. Catellus, the original master developer of the Mission Bay North and South Redevelopment Project Areas, has sold most of its remaining undeveloped land in Mission Bay to FOCIL-MB, LLC (“FOCIL-MB”), a subsidiary of Farallon Capital Management, LLC, a large investment management firm. The sale encompasses approximately 71 acres of land in Mission Bay, and the remaining undeveloped residential parcels in Mission Bay South. FOCIL-MB has assumed all of Catellus’s obligations under the South OPA and the Agency’s Owner Participation Agreement for Mission Bay North (collectively, the “OPAs”), as well as all responsibilities under the related public improvement agreements and land transfer agreements with the City and County of San Francisco. FOCIL-MB will be bound by all terms of the OPAs and related agreements, including the requirements of the affordable housing program, equal opportunity program, and design review process.

6. As permitted under the South OPA, Alexandria Real Estate Equities (“Developer”) purchased a large number of parcels in Mission Bay South, including Blocks 41-43. Developer will be bound by all relevant terms of the South OPA and related agreements, including the requirements of the equal opportunity program and design review process.

7. Pursuant to the Plan and Plan Documents, including the DRDAP, the Developer has submitted a Combined Basic Concept and Schematic Design for a parking garage on Parcel 3 of Blocks 41-43 dated July 11, 2007 (“Schematic Design”).

8. Agency staff has reviewed the Schematic Design submitted by the Developer, finds it acceptable and recommends approval thereof, subject to the resolution of certain conditions.

9. The FSEIR is a program EIR under CEQA Guidelines Section 15168 and a redevelopment plan EIR under CEQA Guidelines Section 15180. Approval of the Schematic Design is an undertaking pursuant to and in furtherance of the Plan in conformance with CEQA Section 15180 (“Implementing Action”).

10. Agency staff, in making the necessary findings for the Implementing Action contemplated herein, considered and reviewed the FSEIR and has made documents
related to the Implementing Action and the FSEIR files available for review by the Agency Commission and the public, and these files are part of the record before the Agency Commission.

11. The FSEIR findings and statement of overriding considerations adopted in accordance with CEQA by the Agency Commission by Resolution Nos. 183-98 dated September 17, 1998, 199-2000 dated October 10, 2000, and 163-2005 dated October 18, 2005, were and remain adequate, accurate and objective and are incorporated herein by reference as applicable to the Implementing Action.

FINDINGS

The Agency finds and determines that the Schematic Design submission is an Implementing Action within the scope of the Project analyzed in the FSEIR and requires no additional environmental review pursuant to State CEQA Guidelines Sections 15180, 15162 and 15163 for the following reasons:

1. The Implementing Action is within the scope of the Project analyzed in the FSEIR and no major revisions are required due to the involvement of new significant environmental effects or a substantial increase in the severity of significant effects previously identified in the FSEIR.

2. No substantial changes have occurred with respect to the circumstances under which the Project analyzed in the FSEIR was undertaken that would require major revisions to the FSEIR due to the involvement of new significant environmental effects, or a substantial increase in the severity of effects identified in the FSEIR.

3. No new information of substantial importance to the Project analyzed in the FSEIR has become available which would indicate that (a) the Implementing Action will have significant effects not discussed in the FSEIR; (b) significant environmental effects will be substantially more severe; (c) mitigation measures or alternatives found not feasible which would reduce one or more significant effects have become feasible; or (d) mitigation measures or alternatives which are considerably different from those in the FSEIR will substantially reduce one or more significant effects on the environment.

RESOLUTION

ACCORDINGLY, IT IS RESOLVED by the Redevelopment Agency of the City and County of San Francisco that (1) it has reviewed and considered the FSEIR findings and statement of overriding considerations and hereby adopts the CEQA findings set forth in Resolution Nos. 183-98, 199-2000, and 163-2005 incorporated herein and those set forth above; and (2) that the Combined Basic Concept and Schematic Design for Parcel 3 of Blocks 41-43 is hereby approved pursuant to the Mission Bay South Owner Participation Agreement with FOCIL-MB, subject to the following conditions:
1. All building materials, particularly the metal mesh fabric, perforated metal louvers, glazing and metal framing, are subject to further review and approval by Agency staff during the Design Development phase and in field mock-ups prior to construction. The location and use of materials shall be consistent with the elevations contained in the Schematic Design application.

2. All landscape materials, including the green screen system and its proposed plant materials, are subject to further review and approval by Agency staff during the Design Development phase and in field mock-ups prior to construction. The location and use of the green screen shall be consistent with the elevations contained in the Schematic Design application.

3. The final color of the vertical elevator shafts shall be reviewed and approved by Agency staff during the Design Development phase.

4. The diameter and proportions of the round columns along the eastern elevation are subject to further study and approval during the Design Development phase.

5. A detailed lighting plan, focusing in particular on the plan for accent lighting along the west façade, shall be submitted for review and approval by Agency staff during the Design Development phase.

APPROVED AS TO FORM:
