report that analyzed the Project, the DDA, the Project Documents, and the Redevelopment Plans, and made findings determining the FEIR to be adequate, accurate, and objective and in compliance with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.) (“CEQA”) and the CEQA Guidelines (14 California Code of Regulations Sections 15000 et seq.); the Board of Supervisors affirmed the Planning Commission’s certification of the FEIR by Motion No. 10-110 on July 14, 2010; and,

findings in such resolution are incorporated by this reference as applicable to the approval of the ENA and Loan; and,

RESOLVED, The Commission finds and determines that the ENA with associated Option to Ground Lease, and Loan, as recommended for approval, are consistent with the Candlestick Point Hunters Point Shipyard Phase 2 Development Plan Project as analyzed in the FEIR and require no additional environmental review beyond the FEIR and addenda pursuant to CEQA Section 21166 and the CEQA Guidelines Sections 15180, 15162, 15163, and 15164; for the following reasons:

(1) Implementation of the Candlestick Point South 11a Project does not require major revisions to the FEIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant impacts; and,

(2) No substantial changes have occurred with respect to the circumstances under which the Project analyzed in the FEIR will be undertaken that would require major revisions to the FEIR due to the involvement of new significant environmental effects, or a substantial increase in the severity of effects identified in the FEIR; and,

(3) No new information of substantial importance to the project analysis in the FEIR has become available, which would indicate that (i) the Candlestick Point South 11a Project will have significant effects not discussed in the FEIR; (ii) significant environmental effects will be substantially more severe; (iii) mitigation measures or alternatives found not feasible, which would reduce one or more significant effects, have become feasible; or (iv) mitigation measures or alternatives, which are considerably different from those in the FEIR, will substantially reduce one or more significant effects on the environment that would change the conclusions set forth in the FEIR; and, be it further
