

→ You are invited to a **COMMUNITY WORKSHOP** to discuss design alternatives for the

Cargo Way runs between Third and Jennings Streets, terminating at Heron's Head Park. It is part of both the Bay Trail, a regional bicycle and pedestrian waterfront path, and the City's Blue Greenway. Cargo Way also accommodates trucks and other vehicles serving the Port of San Francisco.

The goal of this planning effort is to develop a conceptual design for Cargo Way that makes it safe and attractive for bicyclists and pedestrians while also supporting the needs of the area's industrial land uses. Workshop participants will consider different **design alternatives** for improving the street.

The Cargo Way Project is a collaboration between the San Francisco Redevelopment Agency and the Port of San Francisco, with funding from the Association of Bay Area Governments (ABAG).
